# Vishinsky Says Dean Acheson Charge Is Lie

### Chinese Reds Secure Pact With Moscow By EDDY GILMORE

MOSCOW-(A)-Foreign Minister Andrei Y. Vishinsky said to-day U. S. Secretary of State Dean Acheson's charge that Russia is annexing four north China provinces is a "lying and slanderous declaration."

Vishinsky made his statement in an unusual press release to foreign correspondents, coinciding with the arrival in Moscow of Chou En-Lai, foreign minister of the Russian-recognized Chinese people's republic.

Chou's arrival led to the belief that negotiations for a treaty of friendship between Russia and the new Chinese republic of Comminist leader Mao Tze-Tung were nearing a climax. Mao has been in Moscow for a month. Issued At Kremlin

Vishinsky, commenting on the statements by Acheson at the Na-tional Press club in Washington Jan. 12 that Russia is taking over Manchuria, Inner and Outer Mongolia and Sinkiang, said they were intended "to put a good face on a bad game-the failure of Ameri-

can policy in Asia."
Vishinsky also accused Acheson
of uncovering his own "annexationist plans in relation to Japan and also The Philippines and Ryukyu (islands of the North Pa-

LANSING — Construction has started on 3.489 miles of grading and drainage structures and concrete pavement on the US-41 and M-28 relocation from Teal lake avenue in Ishpeming northeast to Negaunee in Marquette county, Highway Commissioner Charles M. Ziegler announced.

This new section of highway, which will replace the last unpaved gap of US-41 between Marquette and Alberta in Baraga county, will start from the end of the existing concrete pavement in Ishpeming and continue to the Rock Cut east of Teal lake avenue. It will correct the present unsatisfactory alignment and grade of the present trunkline.

"Angel Street" is one of those thrilling Victorian plays which depend heavily on characters, and the suspense created by their adventure of the evening. Hamilton, whose latest play was "Hangover House," is a keen student of Victorian literature and the spectacular crimes of that period. Much of his work, including "Angel Street", reflects his knowledge of both of these.

"BUY AN APPLE, MISTER?" - The apple seller remains the symbol of America's great depression of the Thirties, the memory of which remains vivid and fearful in many minds today. The dramatic spark which touched it off was the stock market crash of 1929. But it was not until late in 1930 that the average, thrifty, hard-working wage-earner really felt the jolt. Conditions became harsher through 1931 and by 1932 millions were jobless; business was stagnant. How we got out of it is still a subject of bitter controversy. There came the "New Deal," the bank holiday and the pump-priming measures, the NRA, the CCC, the WPA and NYA. World War II came and it was momentarily forgotten, but the awful shadow of the Big Depression and its apple sellers will long remain.

### WDBC's New Station Goes On The Air

RADIO STATION WDBC's new 1,000 watt transmitter, operating on a frequency of 680 kilocycles, which was scheduled to go on the air at noon today, will provide Escanaba with the finest public radio transmitting equipment available the driver's seat of an automobile. They anywhere in the north. It is an important development in the community's program to "Keep Escanaba Ahead," symbolized by the slogan of the Escanaba Chamber of Commerce

frequency of 680 kilocycles, combined with the increased power to 1,000 watts, will enable WDBC to reach radio listeners in most of the Upper Peninsula, as well as Northern Wisconsin and the upper portion of the Lower Peninsula.

The importance of this "long reach" is immediately obvious, not only to Escanaba but to the area that is the Escanaba trad-

The Delta Broadcasting company, an affiliate of the Escanaba Daily Press, is pledged to a policy of constant improvement of its facilities and its program, with emphasis upon public service.

WDBC is particularly fortunate in its frequency allocation. The frequency of 680 kilocycles is a regional channel, located in an attractive position on the standard broadcast band.

### Garbage Ordinance Revision Likely

THE new garbage ordinance adopted re-- cently by the city council has caused such a wave of dissatisfaction that its revision seems certain, probably at the next meeting of the council.

The feature of the ordinance upon which criticism is centered eliminates pickups containers are more than 10 feet from the property line. The restriction applies generally to all residents but its effect is felt most keenly by persons living on corner lots and those who have no alleys in the backs. rear of their homes. In such cases, garbage containers must be carried to the front of the house on days when pickups are scheduled.

The unsightly appearance of these garbage cans in the front yard is one cause of much criticism, even though the city sought to mitigate the situation by making these pickups throughout the town in one day, Monday.

The purpose of the new ordinance was to reduce the cost of garbage collections or provide additional funds to meet the cost. Presumably it has succeeded in cutting expenses of garbage pickups but it has also brought down the wrath of an army of good citizens and taxpayers.

The protests have not lessened. The members of the council have been besieged with telephone calls from their constituents demanding action. It now seems probable that the action will come soon, perhaps when the council meets in its next regular session February 2. In the meantime the problem is being studied by city officials and by council members with the view in mind of working out a satisfactory

### Nation Acts To **Protect Resources**

HERE and there heartening signs are seen that the country is starting to grapple seriously with the problem of protecting its basic wealth-its resources of

land, water, minerals and forests. Yale university has announced establishment of a new graduate program of research and teaching in conservation of natural resources. The school believes the time has come for the colleges to undertake the training of comptent personnel in this

Backing for the program comes from the Conservation Foundation, an organization headed by Fairfield Osborn, noted Nemesis was the goddess of retribution or conservationist, who calls it a "step of ex- vengeance. In present-day usage nemesis Straight into the river Kwasind traordinary importance." Osborn's group is itself currently engaged in a painstaking flicts retribution or punishment. # Civil Rights Issue Again

BY MARQUIS CHILDS Washington .- Soon the most controversial of all President Truman's civil rights

practices commission intended to end discrimination in hiring and firing-will be before congress. Then we shall hear all the changes rung once again on the debate that is fundamental to our time-the freedom of the individual vs. the encroachment of organized

CHILDS In this space on the first of the year was a discussion of one phase of that debate. It dealt with whether the passenger in a bus or a trolley should be subjected to music and advertising commercials by way of transit radio.

The dissenting opinion of the late Justice Louis D. Brandeis in a famous case involving wire tapping was cited. With the clear and penetrating reason that distinguished his work on the supreme court, Brandeis insisted on the individual's right to privacy. To tap a telephone wire, said Brandeis, was just as much an invasion as

#### "DIRTY BUSINESS"

He argued for "the right to be let alone -the most comprehensive of rights and the most valued by civilized man." Justice Oliver Wendell Holmes wrote his own dissent, agreeing with Brandeis in denouncing wiretapping, a practice that he had called a "dirty business."

This discussion, and especially the Brandeis citation, have called forth several editorials in southern newspapers. An editorial in the Mobile (Alabama) Press attacks FEPC as a most outrageous violation of the right to be let alone:

"This dictatorial agency would turn loose a horde of bureaucrats to pester freedom-loving Americans. The proposed FEPC would be a trouble-making agency of first magnitude. It would interfere in the affairs of employers and employees. The former would lose his right to hire and fire or promote employees as he sees fit. The employee would lose his right to

United States was also having trouble with China -not with the Communists but with his imperial majesty-the emperor. The trouble then, some-

what as today, was over the exclusion of American business from Chinese trade, and because the British, as today. were getting the inside PEARSON track.

As a result, President John Tyler sent what Maury Maverick describes as "the corniest note ever signed by a president" to the emperor of China urging him to open his ports to the United States. Carrying the note to the emperor was

explicit instructions from Daniel Webster, then secretary of state, "to secure the entry of American ships and cargoes into these ports on terms as favorable as those enjoyed by British merchants." Not foreseeing that China someday would undergo vast political changes,

Special Ambassador Caleb Cushing, with

Daniel Webster made this observation in his letter to Ambassador Cushing: "It cannot be foreseen how rapidly or slowly a people of such peculiar habits as the Chinese, and apparently so tenaciously attached to their habits, may adopt the sentiments, ideas and customs of other na-

tions."

### VIOLENT FLIP-FLOP

Little did Webster realize that China someday would desert her traditional isolation for the violent political philosophy of Karl Marx.

At that time, however, the Chinese were really stony-hearted-except to nations with navies as large as the British. Therefore, President Tyler's letter to the emperor got nowhere. However, Tyler tried hard, and here is the jewel which he penned on July 12, 1843:

"I, John Tyler, president of the United States of America-which states are: Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, Vermont, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Kentucky, Tennessee, Ohio, Louisiana, Indiana, Missis-This is just a reminder that sippi, Illinois, Alabama, Missouri, Arkanthere are lots of God's little crea- sas, and Michigan-send you this letter of tures who are having a hard time peace and friendship, signed by my own

# LUDINGTON **BUY-LINES**

by Sue Donimus Had a little trouble with my

portable typewriter yesterday, so

I had to hop down to my hubby's office and use his big L. C. Smith. That machine is a wonder, yet the date on it is 1905. He tells me it is the first model made. The Serial No. 1 machine was used in the New York Herald reporters' room 24 hours a day for eight years, and turned up in 1933 in an L. C. Smith office where it was demonstrated at 180 words per minute and is still going strong. That's an impressive record for a machine as complex as a typewriter! Well, I hinted around as I left hubby's office that the new Smith-Corona portable is just what any woman wants. They can be seen at the Office Service Co. (authorized local dealer). I hope you'll stop in to see these really streamlined, magnificent machines (and I hope he does, too!).

Our winter wonder-land has finally arrived . . . is your wee one prepared for it? Nylon snow suits are the last word in good looks, warmth and durability. You can get them (also those Larsen, the former Eva Peterson of this city, was called by her father's hard wearing skinner satins and children's illness. His condition is reported gabs) at Reynolds Children's Shop right now at 20% or more reduction. Sizes 1 to 4, 4 to

# Escanaba, Like Most U. S. Towns, Has Its Bells Too

RINGING ST. PATRICK'S BELLS - Sometimes Jim Gallagher, custodian at St. Patrick church, has help when he rings all three of the church's large bells. Here you see James and William Farrell assisting him with the ropes. The bells of St. Patrick church were installed in 1902, when the church was built. Gallagher is one of three persons who were the first baptized in St. Patrick church. A few years ago the parish considered purchased of a mechanical bell ringer, but the cost prohibited immediate purchase. St. Ann parish and St. Anthony parish of Escanaba do not have permanent church structures yet, but when these are built, bells will be erected. All Catholic church bells are dedicated by the bishop of the diocese, in an elaborate church ceremony.

# Four Escanaba Churches Have Bells; Three Have Chime Sets

Are bells just so many tons of bronze swinging in the air for no good reason, as the Russians like Catholic annals, early religious to say, or are they a Christian tra- communities were able to tell what dition with deep meaning?

#### Early Uses From information gathered

about town, the ringing of church bells is taken for granted. A few observant ones however have some interesting observations to report. Several for instance can tell which bells are ringing, whether all three Catholic bells are being rung at the same time, and . . . whether or not the fellow who usually rings them is on the job!

Bell ringing is an ancient art, and so is the art of bell making. In the United States, most church custodians and sextons have simple rhythms for ringing the bells and tolling for funerals. They usually are unaware of any particular style of ringing, and just pull the bell or toll rope for a prescribed time. An observant listener can detect differences however.

In earlier days, bells were often tolled to indicate the age, sex and quality of a person who had died. This custom originated with monks, who used the "passing bell" to summon fellow monks to the side of a dying brother. The custom is still practiced in some

small communities. Bells are also used to add solemity to festivals, to mark days of na- tone. In excellent bells, there is tional rejoicing, to announce the hour of services and in Catholic churches, to remind the devout to pray in honor of the Incarnation of This latter is called the Angelus. is rung joyously.

Bells Are Dedicated

According to information in type of ceremony was to be held, The rest of the world can speak what grade of a feast was to be

Bells are made by pouring molmany Escanaba men are late for ten metal between two molds, the plates were riveted together. Later glass was used. In the Middle Ages most bells were made by families who lived near the church. At one time the names Van den Ghen, Hemony and Wagheven meant to bells what Stradivarius does to a

### Proper Pitch

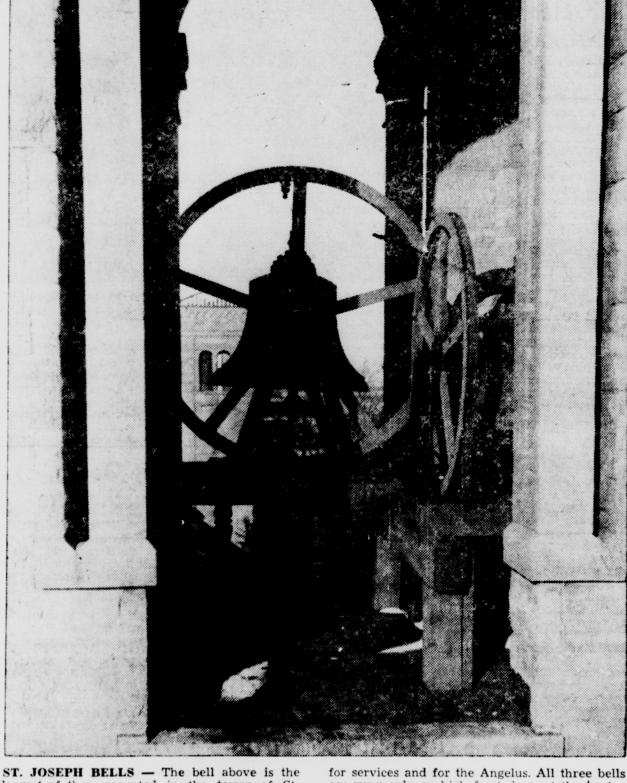

Once a bell is made with proper pitch, it will retain it forever. If a on Sunday morning. Recently the Spain bell is cast and it does not have the right tone, the interior can be made wider to lower the pitch. It is virtually impossible to raise the pitch of a bell. Some bell makers still cast as many as 30 or 40 to get a Rev. Karl J. Hammar. set of 10 perfectly matched in a harmonic scale.

Few persons, even accomplished musicians, can tell the pitch of bell, according to Benjamin Bleid in a recent article in "Church Property Administration."

A good bell is suppsed to have a strike tone, then a hum tone either an octave or a sixth below. Above the strike tone, there is a nally an octave above the strike also a major tenth and perfect 12th above the strike tone.

ganist at Bethany Lutheran church, here operates the keyboard which controls the 12-tube Deegan chime set which the church installed nearly 30 years ago. Because chimes have composite rather than fundamental tones, many persons think chimes are "out of tune" when they first hear them, the organist states. Later when the listener's hearing has been accustomed to the chime tone he will think the instrument has been "tuned." Each chime tone, Miss

pital in Omaha, Neb., says, is comprised of a succession of four quarter tone steps. On a piano there are two strings vibrating for each tone, but both are in the same pitch. The First Methodist church and the Central Methodist church of this city also have chime sets. The latter two churches use recordings of church hymns, on a record player connected to a loud speaker system.

# Cut 'Island' Of Big White Pine At Hendricks

### **Estimate Trees** , 250 Years Old

Huge white pine trees from a little "island" that escaped fire and the attention of the lumberman are today being trucked to mills in Escanaba and Wells from near Hendricks, cut by Albert Krause, jobber for Sawyer-Stoll Timber company of Escanaba.

Carl Sawyer, president of Sawyer-Stoll, estimates the oldest of the trees to be between 250 and 300 years. Some of them were seedlings a couple score years after the Pilgrims landed at Plymouth Rock.

About 14 big pine trees were in the stand located southwest of Hendricks near the Delta-Menominee county line. Largest of the trees measured up to 40 inches diameter at the base, and were 120 feet high

From Original Stand

Only a few such "islands" of original white pine stands remain in this area. They represent the remnants of once vast pine forests that blanketed the Upper Peninsula, and were ignored by the loggers because the stands were inaccessible or the trees too few in number to make cutting worth-

The stand near Hendricks escaped destruction by fire that raged through forests in that area about 1850, Sawyer said.

Krause cut and skidded the logs and decked them on rollways from where they were trucked to the Birds Eye Veneer company plant at Escanaba and Shepeck Dimension mill at Wells.

Best and clearest of the pine logs will go to the Birds Eye plant for the manufacture of clear pine veneer, now in demand for fine furniture and cabinet finishes. There is plenty of knotty pine to be had, but it is difficult to obtain a sufficient quantity of the clear pine. Remainder of the logs not used for veneer will go to Shepeck Dimension company mill. Fine Cabinet Woods

Escanaba pine, as it is known to the trade, will be found covering many fine radio cabinets, such as Magnavox. That company features the "antique finished Escanaba pine" in its advertising.

These fine veneer finishes, particularly in clear pine, can be produced only from the old pine stands, widely scattered throughout the Upper Peninsula. For only the old trees have the desired clear length, free of knots, from the base to the first branches.

Through reforestation and fire control, plus selection in cutting, the Upper Peninsula is growing a rew crop of white pine. But it will take another century or two before most of them reach marketable maturity.

### Attack Of Measles **During Pregnancy** Is Threat To Baby

Ann Arbor-Mothers who have already had German measles are less likely to give birth to children pregnancy, according to a University of Michigan doctor. An attack of the three-day var-

# Poll Of Editors Backs lke In '52

### Eisenhower Favored For Presidency

By PETER EDSON

Washington-NEA-Harry Truman should not run for another term in the White House and Dwight S. Eisenhower should be the Republican candidate for president in 1952.

These are two outstanding opinions expressed in a poll of U. S. newspaper editors. The poll was conducted by NEA Service, Inc., to determine editors' political predictions for the New Year and beyond.

Twenty-one questions on dom- Firemen Answer estic and foreign policy issues which will be discussed in the coming session of Congress were sent to the 723 U.S. editors who receive this column. Three hundred and forty-five-over 47 per cent-sent back their answers. here, Professional pollsters say this is a good return for a survey of this

every state in the Union. And they were so distributed that they give a balanced cross-section of opinion from every region. Arbitrarily dividing the country into six geographical areas, the replies are accounted for in this manner: 12 states, New England and Mid-Atlantic Coast area-49 pa-

10 states, South-east of Mississippi River-58 papers. 5 states, Midwest-east of Mississippi River—73 papers. 8 states, Midwest-west of Mis-

sissippi River—59 papers. 5 states, South-west of Mississippi River-57 papers.

states, West-Pacific Coast and Rocky Mountains-49 papers. The returns were surprisingly even on most questions from area to area. Editors were 71 per cent opposed to another term for President Truman in both the Northeast and the South, 56 per cent against him throughout the Midwest, 62 per cent opposed in the

#### Against Truman Policies

Newspaper editorial opinion has of course been heavily anti-Democratic ever since Roosevelt's second term. The carry-over opposition to Mr. Truman today may be regarded by Democratic political leaders as sour grapes over his surprise victory in 1948 elections. But a close study of returns from this newspaper poll shows the editors are opposed to Truman's policies-not to the man himself. Most of the editors said honestly that they thought Mr. Truman would seek another term in the White House, even though they wished he wouldn't.

As to who the Democratic candidate should be in 1952, if not Mr. Truman, the editors were sharply divided. Fifty-three per cent would make no prediction whatever, saying it was too early. Fourteen per cent proposed James F. Byrnes of South Carolina. Only a fifth of the Southern editors were for Byrnes, however, and he got as many votes in North and Midwest as in the

Next to Byrnes was Sen. Harry Flood Byrd of Virginia, with 8 per cent of the editors' votes. Byrd showed more strength in the south than Byrnes, but got less support in other parts of the country.

Third was Sen. Paul H. Douglas of Illinois, with three per cent of the votes. Whiles this showing is small and concentrated in the Midwest, his is the only new name on the list.

Senator Douglas nosed out Defense Secretary Louis Johnson, Sen. Clinton Anderson of New Mexico and Justice William O. Douglas. Other votes were scat-

tered among 17 names.

Should Be Republican

One question asked the editors was, "Should General Eisenhower crat?" Fifty-nine per cent said he should run as a Republican, 4 cent as either Republican or Dem-

#### ocrat. But 26 per cent of the editors thought it would be best if General Eisenhower did not run at all. When it came to the question

of, "Who is the best man the Republicans could run against Truman?" 44 per cent of the editors answered "Eisenhower," 28 per cent said "Taft," 13 per cent said "Stassen," 2 per cent said "Warren." Seven per cent were unde-

cided. The rest of the vote was scattered among 11 other names: Marshall Plan Administrator Paul Hoffman, Governors Dewey of New York, Driscoll of New Jersey and Youngdahl of Minnesota; Senators Vandenberg, Saltonstall, Bricker and Ives; General Mac-

Byrd and Byrnes, though Democrats, got one Republican vote

ClosetsFive
Cubage
Dimensions25'x42'6"
A modified ranch style home
is presented today by the Home
of the Week Plan Service. It is
"The Elton," a five room house.
built on one floor.
Because of its design, it's only

twenty-five feet wide "The Elton" is ideal for a narrow lot. A 40-foot minimum lot is required. The house measures 42'6" long and has a cubic footage of 20,000.

A large living room, with fireplace if the owner desires, a combination kitchen and breakfast area, three bedrooms and a bathroom are included in the floor plan.

The projecting entrance makes possible a window in the living room overlooking the front lawn and street and gives a welcome break in the roof line.

The vertical lines over the door and window contrast pleasantly with the horizontal lines of the clapboarded sidewalls. The panelled door gives a further dignity and the small panes serve to light the vestibule which boasts a large coat closet, a popular feature seldom provided in homes of modest

A fireplace, between the two side windows of the living room, would be a pleasing addition not only to the living room, but also to the outside appearance of the

### Spacious Living Room

Through the vestibule. 16'6"x11'6" living room is visible. The corner windows and the second side window provide a bright and well-ventilated room. If a fireplace is built between the side windows, the area beneath the corner windows would make an excellent place for a builtin seat. The back and inside walls of the room are long and unbroken, except for a door into the hall in the far side wall. The hall runs through the center of the house and divides the sleeping quarters on the right side of the house from the living and eating

#### Bedrooms Described The front or master bedroom is

13'x12'. It has two windows for light and ventilation and a large closet just inside the door. The middle bedroom, measuring 12'x 9' would be ideal as a boy's room. Bunks could be built along the back inside wall and there would still be ample floor space for other furniture. A large closet on the front inside wall would accommodate clothes and playthings for two youngsters. Double windows provide light and air.

At the end of the hall is the back bedroom measuring 12'x10'6". Three walls are unbroken providing ample space for large pieces of furniture. Double windows are on the fourth wall. A closet is in the back corner, next to the cellar stair well.

Before reaching the door to the last bedroom the hall widens and has a broom closet on the left, adjacent to the door to the bathroom A swinging door to the kitchen is located next to the bedroom door.

Convenient Bathroom The bathroom is strategically placed in the center of the house so that it is easily accessible from any room. A handy linen closet is provided just inside the door. The plumbing layout has been planned so as to keep construc-

tion costs to a minimum Entering the kitchen you'll immediately notice the spacious

### Summer Heat Makes Water Pipes "Sweat"

"Sweating" pipes and plumbing fixtures in summertime are not a jobs. sign of faulty plumbing, advises the Plumbing and Heating Industries Bureau. As a result of con- ety says American craftsmen have densation of water vapor in the recaptured the lost medieval methair, beads of moisture will form in ods of staining glass warm weather on any pipes and fixtures containing cold water.

Normally, when not in use, the water and fixtures will warm rapidly to room temperature and the condensation will stop. When a loset tank or other fixture continues to "sweat" for hours after it has been used, it is a sign that cold water is continuing to flow through it, possibly as a result of an improper adjustment of the tank valve or a leak. In this case, a master plumber should be called, for checking and servicing.

# PTA Will Sponsor Many Activities

The Lakeside Central Parent Teachers association held its regular monthly meeting at the Central school on Thursday evening.

Announcement was made by Mrs. Edwin Crook that fifteen kindergarten children of Lakeside school were vaccinated and started on their series of immunization shots by Dr. E. J. Brenner last week. Kindergarten children of the Central school will be started next Wednesday and the remaining grades will go through the clinic at the Health office in the Court House on successive Wednesdays.

Plans were made for a pay-toplay card party to be held at the Lakeside school on February 16 at 3 o'clock, Mrs. Malcolm Nelson Clifford Jackson, Mrs. Dallas Creeger, Mrs. T. H. Reque and

Mrs. Richard Larson assisting. The association voted \$5.00 conributions to the Community Chest and the Infantile Paralysis Drive. Miss Esther Middlewood, consultant for the State Department of Health on Mental Hygiene, will be sponsored by the eastside and

westside Parent Teachers associations for round table discussions on Mental hygiene of pre-school and school age children on Febru-

# Joe Louis Says Munising Upsets Stique By 33-32

STOCKTON, Calif.—(A)— Joe Louis, the ex-heavyweight boxing champion, says he's retired-and that's that. "I've had enough," Louis declar-

ed here last night. It was his reply to a fight challenge broadcast on a National radio program (We the People) by NBA Champion Ezzard Charles.

"I'm challenging Louis to fight me for the title," Charles said last night. I've had 71 fights and I've won 67. Joe still packs a terrific wallop but I'm sure I can give him a fight, X X so if my old pal Louis is listening in tonight I just want to tell him this:

"Joe, come on out and fight." Well, Joe wasn't listening but the word got to him anyway. And this is what he had to say:

"I've had enough. I won't come out for Charles or anybody else. I weight around today."

the logical contender, Louis said, own skill. Bruce Woodcock-Lee Savold bout six over par for the first 18 schools, Manistique won, 29-24. to be held in England this spring.

CARD OF THANKS

We wish to express our heartfelt thanks to the many friends and neighbors who by their acts of kindness in our recent bereavement, helped to lighten our burden of sorrow. Especially do we thank Fr. Sylvester Paulin for his comforting words, the pallbearers and the many friends who sent cards and floral offerings.

In India Faces Peasant Protest

Congress Party government was staged here recently by more than 1110 Lucington Phone 2296 15,000 peasants. They demanded Escanaba, Michigan C-21-3t 15,000 peasants. They demanded economy. The peasants marched in a twomile-ling procession organized by the Socialist Party. They want a more liberal deal for peasants under the United Province's bill for abolishing the zamindari system, under which most of the land is owned by a few landlords.

### III Health Forces Vandenberg To Ease Up Capital Duties

WASHINGTON—(P)—Ill health may cause Senator Vandenberg (R-Mich.) to give up his member-ship on the senate-house atomic energy committee.

Some of his senate colleagues told a reporter yesterday that Vandenberg has discussed the matter but has not reached a definite decision. He was not reached for direct comment.

If he should resign, Vandenberg probably would be succeeded on the committee by Senator Bricker (R-Ohio). Bricker, a former member, lost his place on the committee when Democrats took control of congress more than a year ago. Bricker then was a severe critic

in security matters of the atomic energy commission and its chairman, David E. Lilienthal. Vandenberg, recovering from a

lung operation last fall, has not taken an active part recently in atomic matters.

### Los Angeles Baker To Die For Brutal Slaying Of Girl, 6

LOS ANGELES - (P) - Fred Stroble is sane and must die for for murdering six-year-old Linda

Joyce Glucoft. Superior Judge Charles W. Fricke, who ruled him sane yesterday, will pronounce sentence next Friday. Under California law it will have to be death in the gas chamber because the jury convicted him of first degree murder with no recommendation of leniency.

Lone uncertainty for the 68year-old grandfather now is when he will meet his end. The law also provides for automatic review of all death sentences by the state supreme court, which sometimes takes several months.

Stroble's defense counsel abangranddaughter.

### 'Oh—What A Brain On Fearless Fosdick'

LONG BEACH, Calif.-(AP)-Amateur golfer Hody Lane came up to the fog-shrouded second green, 75 yards from the clubhouse, during the current Long Beach open tourna-

He couldn't see the hole 35 yards away, so he walked to the green. Then he retraced course, carefully counting each step back to his ball.

Then he took a four-iron and belted the ball clear over the clubhouse

Suddenly something dawned on him. Instead of counting the steps "one, two, three, four, five" and so on, he had counted them "five, 10, 15, 20, 25, 30, 35."

# Golf Club Ordered To Permit Negroes

CLEVELAND - (AP) - Appellate court judges here yesterday ordered the Lake Shore golf club course in suburban Bratenahl opened to Negroes.

The court found the club was being operated as a subterfuge to keep Negroes from playing there and was in "clear violation" of Ohio general code Civil Rights

Presiding Judge Lee E. Skeel

"It requires no citation of authority that places of public amusement cannot discriminate among members of the public seeking the right to enjoy the facilities of such places of amusement on the ground of race or color."

### Coal Thief Uses Pail

PASSAIC, N. J. - (P) - Kurt Wehrmann couldn't quite figure ont why he was using up his coat supply so fast.

He took his puzzle to police yesterday. They found that a man who has been sleeping in Wehrmann's coal bin with his permission, has been carrying away the coal, a pail at a time, over the period of several weeks.

# It's Official! Lions Acquire Leon Hart

PHILADELPHIA—(P)—How to solve the complex player draft is the major problem before embattled National-American Football

League owners today.
The 13 owners awarded giant Leon Hart, Notre Dame all-America lineman, to Detroit late last night. Then they spent four fruitless hours trying to decide how to apportion the rest of the 1949 college grid talent.

Commissioner Bert Bell said the owners are hopelessly deadlocked and then facetiously remarked that they would give it the "old college try" again today.

The persuasive powers of silverthatched Bo McMillin, coach of the Lions, brought the first unanimous agreement of the two dayold founding meeting.

McMillin told the owners that Hart was Detroit's "bonus pick" ly. Moreover, the commission said, at a draft meeting held last year the rates "were not shown to have by the defunct National Football League.

"Since the three all-America March, 1946 when the rates on conference teams merged into our dred Stenlund, at a meeting at the the ore were 92 cents a ton, in- group under our old constitution
